Your Superintendent can but repeat what was said in last report in regard to our schools. As I said in my last report, our schools should interest every tax payer in town. We should strive to do our utmost to improve our schools and by so doing better prepare our boys and girls for the duties of life, for our children of to-day must be our citizens of tomorrow.

It therefore becomes our duty to improve each opportunity to better the condition of our schools and by so doing make better

future citizens to take up the work which we must soon leave for others to do. With the teachers' aid much might be done to inspire the pupils of the town with an ambition to acquire an education. But this inspiration must begin in the home, then aided by the teacher with encouraging words and kind deeds which means much to the boy or girl who is trying to solve some of the problems which go to make up an education. Then a few words of encouragement from the Superintendent to help convince them that all are interested in their work and welfare. All goes to help smooth the pathway and make the task seem easier.

We have been unable to get as many weeks of school this year as we should have and keep within the appropriation. Now then we must appropriate more money for schools unless have fewer weeks of schooling. Now which it shall be remains for the town's people to say. I certainly hope that the town will vote to raise the amount recommended by the S. S. committee, which is small enough to insure a fair amount of schooling.

The question of transportation still remains a very perplexing and unsatisfactory one and it is the opinion of your school officers that it would be for the best interest of the town to build a new school house to accommodate the children in what is known as the Martin district, who now demand transportation.

We have been obliged to again overdraw the book appropriation in order to place suitable books in the hands of our pupils, and have recommended that the amount be raised a little so as to try and keep within the appropriation the coming year.

Respectfully submitted,

G. W. RICHARDSON, Supt. of Schools.

#### RECOMMENDATIONS OF S. S. COMMITTEE.

Having carefully considered the needs of the schools of Greenwood, we respectfully make the following recommendations for the coming year.

For support of schools.....	\$1,050 00
Purchase of text books.....	100 00
Repairs and appliances in addition to unexpended bal..	50 00
High school tuition .....	100 00

Would also recommend that an article be put in town warrant to see if the town will vote to instruct the school board to maintain a school in districts No. 3, 5, 8 and 9 or otherwise. Also to see if the town will vote to build a schoolhouse to accommodate the children of A. H. Tracy, Royal T. Martin and others in that vicinity. School-

house to be located near the turn of the road leading to Jesse Daniels' house, the exact location to be designated by the S. S. Committee.

Respectfully submitted,

GUY COFFIN,	}	<i>Superintending School Committee.</i>
